Santa Barbara, CA 93102

Dear Parks and Recreation Department,

We are applying for a permit to remove a very large Leyland Cypress tree from the back corner of our lot that is within a property setback and next to Cliff Drive.

The tree has grown very tall and wide and we have kept it well pruned, but during a storm this past Spring, it's companion Leyland Cypress fell through the fence, over the sidewalk and onto Cliff Drive. We then decided that this even larger tree was a liability if it too fell onto Cliff Drive or onto our house due to it's height.

The soil beneath the tree is loose and unstable and there is a slight lean to this large, heavy tree, therefore, we feel it is best and safer to remove the tree than to regret not doing so if it falls during another storm. We don't want to take that chance.

In the future, we hope to re-landscape our yard with waterwise plantings and choose smaller, safer trees.

Thank you,

Edward and Alexis Foster

letter for tree permit

To Peter Scott, Peterson's Tree Care regarding permit information for removal of tree at 3717 Barcelona Dr., Santa Barbara. 6-14-2017

LETTER FROM OWNER:

This letter is from the owners. The property is owned by sisters Janine Goffar Colburn and Colleen Goffar Woodhouse and me, Ernie Woodhouse. The latest deed is 2003 and Colleen's 1/2 share was deeded into our Woodhouse Family Trust. Janine owns the other 1/2 share.

I am writing this letter as both part owner and as manager of the property Colleen and Janine for about 30 years. I have Power of Attorney and can speak for both Colleen and Janine as we have discussed these matter at length recently.

The reasons for removal of the tree are the following:

1. Even though Peterson Tree Service has taken excellent care of this huge tree for many years, there remains a risk of it falling. I've heard the age estimated at about 100 years plus or minus. Petersons said there was a crack near the base, but it has healed somewhat. The tree overhangs both our garage and our neighbor's garage to the west. Either structure could be severely damaged if one of the giant limbs were to fall on it.
2. I have checked with our insurance agent, and she says there is no gaurantee that such damage would be covered under the homeowner's policy.
3. We 3 owners do not wish to continue to accept this risk ourselves.

There is no new development or redevelopment planned in association with the tree removal.

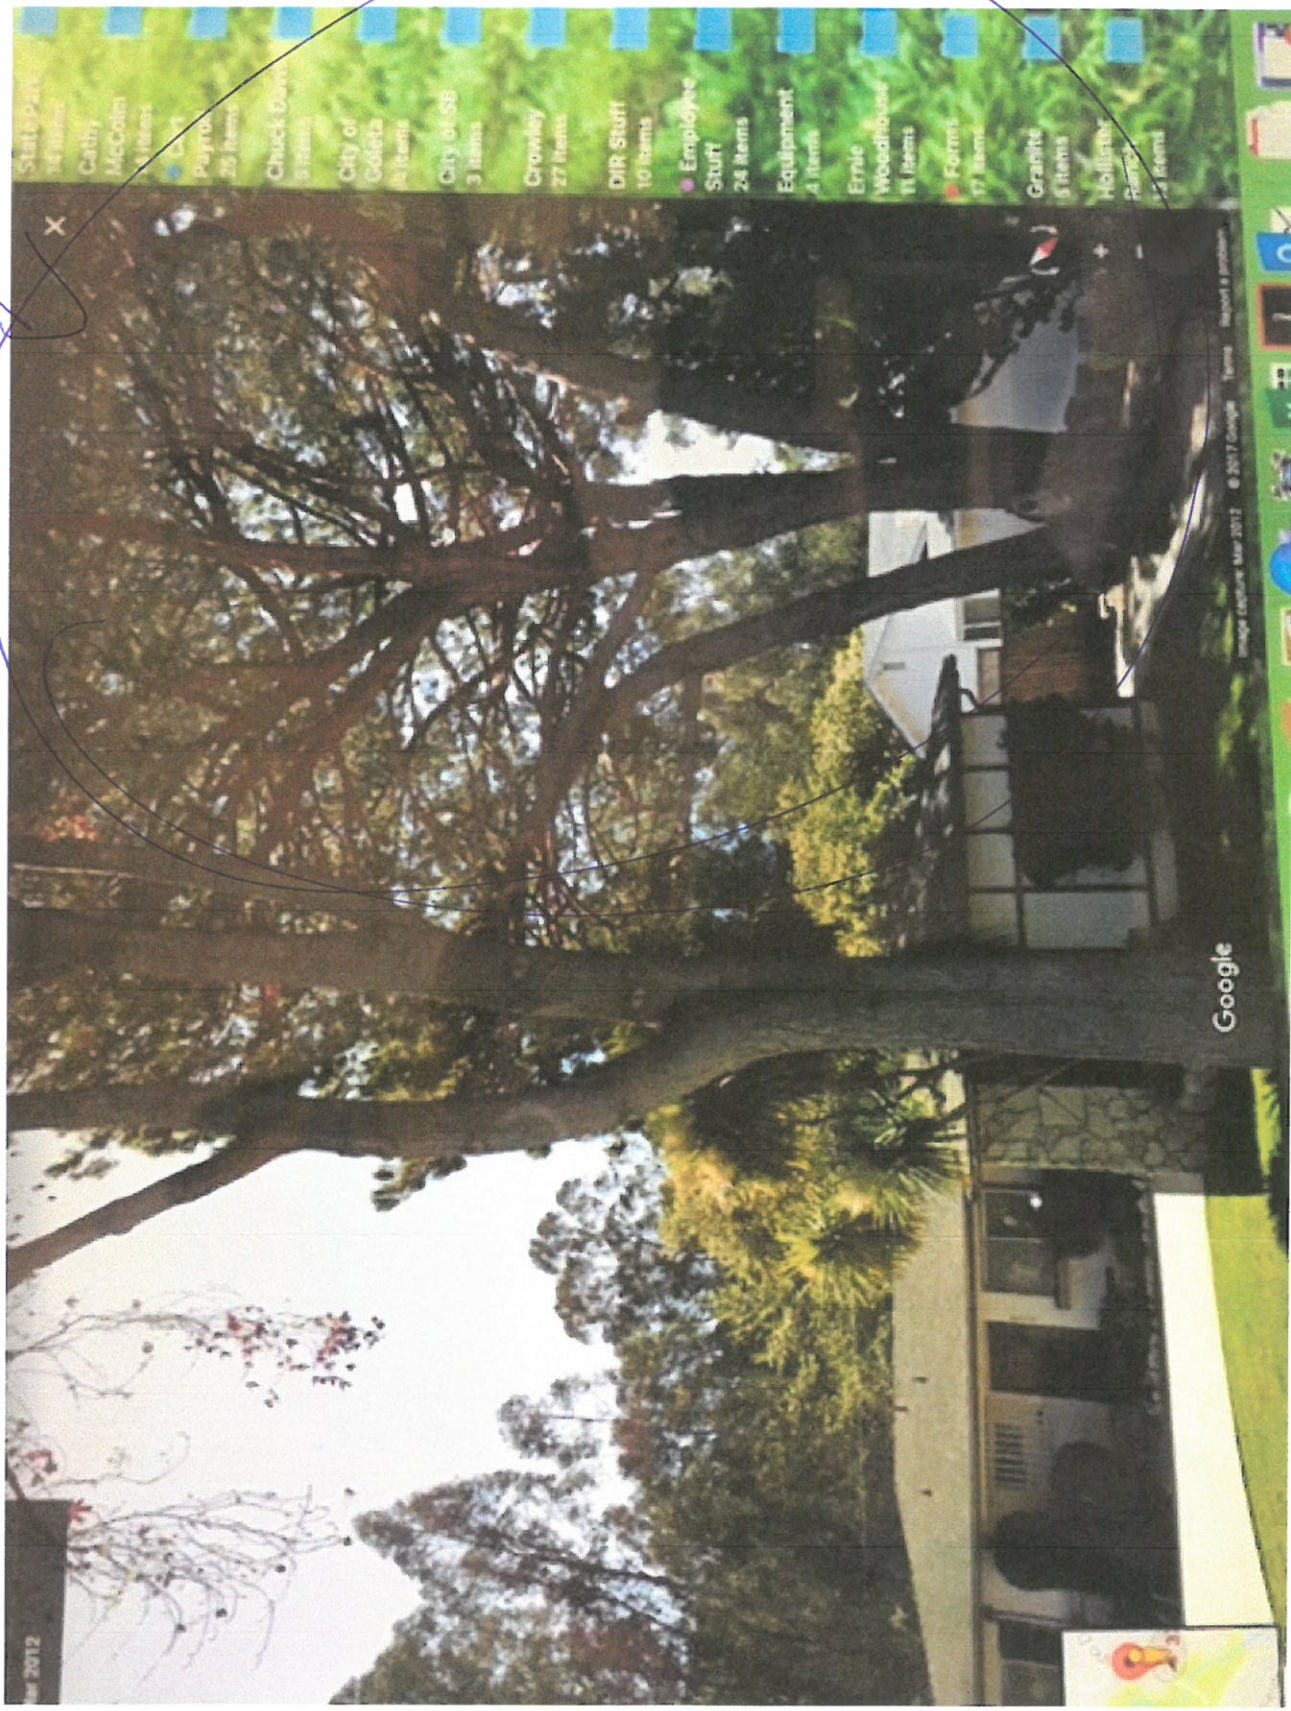

Peter Scott at Petersons Tree will be ansering the status of the permit. Since we all live near San Bernardino, Ca., we appreciate having Peter Scott handle the remainder of the permit issues. He will know the review process and status of the permit as he works it through the system. He will know the status of the tree for whether Designated Specimen and/or Historic Tree.

PHOTO OF TREE: I will email a recent photo to Peter to include with this letter.

DEVELOPMENT/LANDSCAPE PLAN: There are no additional landscape plans. We have discussed with Peter that upon removal - the stump will be cut as close as possible to the ground level. There is existing shrubbery in that are of flower bed that will suffice for landscaping.

CARRIAGE AND WESTERN ART MUSEUM OF SANTA BARBARA

April 24, 2017

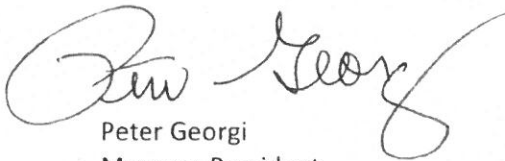

City of Santa Barbara
Parks and Recreation Dept
Tree Removal
P.O. Box 1990
Santa Barbara, CA 93102

The Carriage and Western Art Museum of Santa Barbara is requesting permission to remove a grove of Sycamore trees in a patch of land that belongs to the City of Santa Barbara. The land is located next to the museum property. The trees have been dropping debris for years causing damage to the float beds used in the Fiesta parade. A branch dropped last month causing damage to a phone line servicing the Old Spanish Days located at the museum. The ground underneath the trees has attracted homeless as a campsite and overnight sleeping. A branch dropped into the museum grounds last year creating a hole in a storage container stored on site. Now the container leaks. Museum employee Alex Ramirez has been approached by the homeless as he leaves the museum property late at night. He fears for his safety.

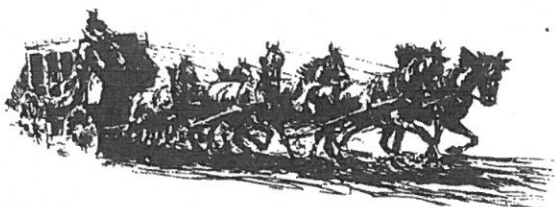

The Carriage Museum wants to be a good neighbor. The museum is willing to assist with the removal of the debris or a portion of the cost associated with the removal. We want to be part of the solution, not part of the problem. We can make this portion of the museum lot available for trucks and equipment anytime in July or August as the floats are removed and prepared to be used in the Fiesta parade

Please consider this request and contact me with any questions.

Thank you.

Peter Georgi
Museum President

129 CASTILLO STREET, P.O. BOX 1587

Subject: Carriage Museum Request to remove trees

Tim,

Thank you for meeting with me at the museum to discuss the tree situation.

The Carriage Museum respectfully requests you postpone the current decision with regard to the removal request of the sycamore trees located on the parcel adjacent to the Carriage Museum

The Carriage Museum would like to revise the request to remove the six existing palm trees on the parcel of land inspected by the committee plus the removal of one small trunked sycamore tree located on the same parcel closest to the museum fence.

The palm trees are invasive and the sycamore tree is crowding other sycamore trees.

Thank you for your time and consideration.

Respectfully,

Peter Georgi
